HEAR FROM THE HEADMASTER

SPCS Family,

Welcome back, Saints! Thank you for another smooth start. I was happy to see all of the smiling faces, hear the laughter and conversation, and feel the excitement of the students and staff as I walked the campus this first full week. This year, we welcomed 58 new students to SPCS! Our teachers and current students have welcomed them and made them feel comfortable. We look forward to getting to know them better!

This week, we already held tryouts for 3 of our Fall sports teams and also elected this year's Student Government Representatives. On Thursday night, we hosted many of our new families for dinner and fellowship. We are glad they are here!

"Therefore, if anyone is in Christ, the new creation has come. The old has gone, the new is here!" 2 Corinthians 5:17

Enjoy your weekend!

In Him,
Bobby Hunter

NEW FRIENDS FOUND

SWEET KINDERGARTEN SIBLINGS

Our Kindergarten classes are packed with siblings this year. Of the 40 students, 22 of them are siblings. It is finally their time to be a Saint!

SECOND GRADE

Mrs. Koon's second graders had fun sharing three special items from home! It was a wonderful way for them to learn more about one another!

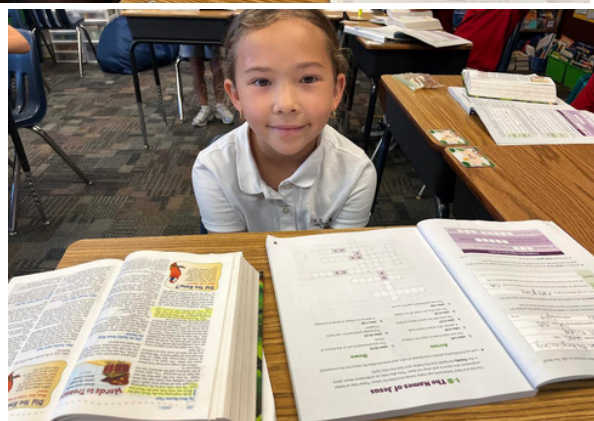

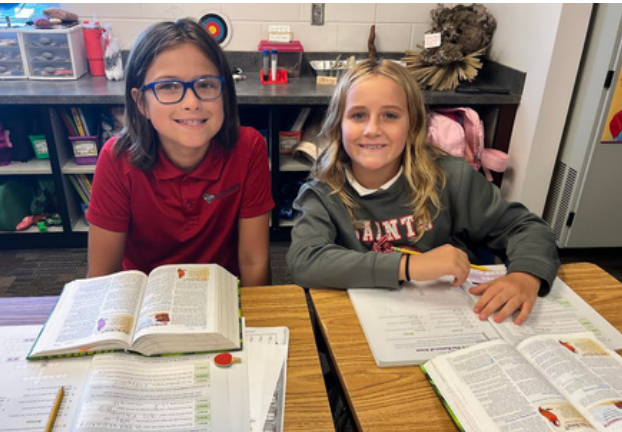

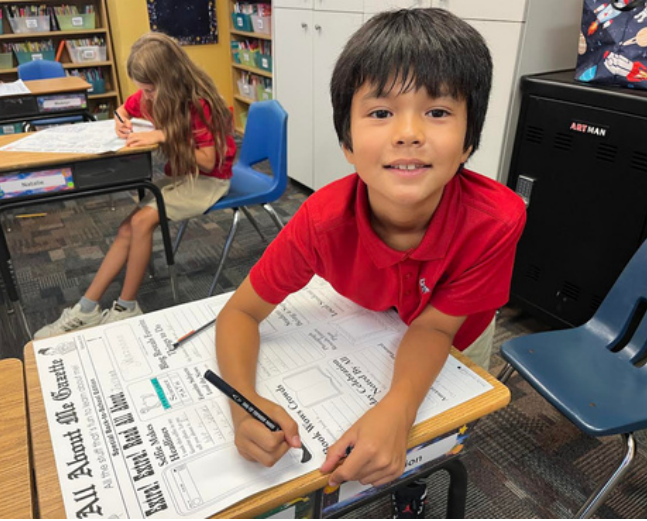

THIRD GRADE

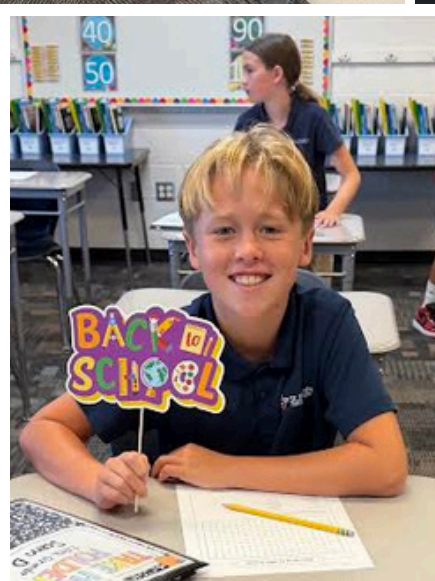

4th GRADE

Fourth graders kicked off the new school year creating a newsletter about themselves and getting right back in the groove of academics.

5th SGRADE

To start the year, fifth graders engaged in team-building activities and were also introduced to the scientific method in a fun gummy worm lab!

Welcome BACK TO SCHOOL

MIDDLE SCHOOL LAUNCHPAD

Incoming 6th graders and students new to our middle school program participated in the MS Launchpad Camp. Each day students engage in fun activities to prepare them for this next chapter. One of the activities was a STEM Challenge. Teams had to work together and encourage each other as they designed devices that would launch and catch a ping pong ball.

6TH GRADE SCIENCE

As our 6th grade students learn about the Scientific Method, they worked to build bridges that met specific criteria and constraints with their teammates. Their team-inspired structures had to be specific heights and lengths made with only provided supplies. Lab groups then needed to place small objects in the center of the bridge to show stability in their creations.

7TH GRADE SCIENCE

Seventh grade lab teams participated in a STEM challenge to start the year. They had the opportunity to build spaghetti towers using only marshmallows as their supplies. Successful teams created the tallest structures that were sturdy and stable, standing tall for 30 seconds.

FRIDAY 9/18/26

8TH GRADE SCIENCE

Our 8th graders are diving into weekly labs as they begin the school year. Groups worked through the steps of the Scientific Method and tracked their data. Each team presented their results so they could compare and analyze their information and determine if their data collection supported their hypothesis.

STRATEGIC GAMES ELECTIVE

Students in the middle school strategic games elective put down the screens to play some good old-fashioned games!
