HEAR FROM THE HEADMASTER

SPCS Families,

Our week concluded with a half-day of school that marked the end of a successful 1st quarter. Thank you, everyone, for such an outstanding start. Our students are growing academically and spiritually in Christ. Proverbs tells us to "...train up a child in the way he should go; even when he is old he will not depart from it." Without a doubt, God has a special plan for each of our students.

I am looking forward to seeing what God has in store for us this 2nd quarter. Thank you again for your continued partnership with SPCS! I hope that each of you has a blessed weekend.

In Him,
Bobby Hunter

UPCOMING EVENTS

Picture Day

6TH GRADE SCIENCE

Sixth graders tackled a STEM Challenge where they worked together to plan the construction of a tower using only wooden splints and clothespins. Towers needed to be as tall as they could build and hold weighted objects. Their goal was to have the tallest, sturdiest structure in the class. The teams demonstrated creativity and commitment!

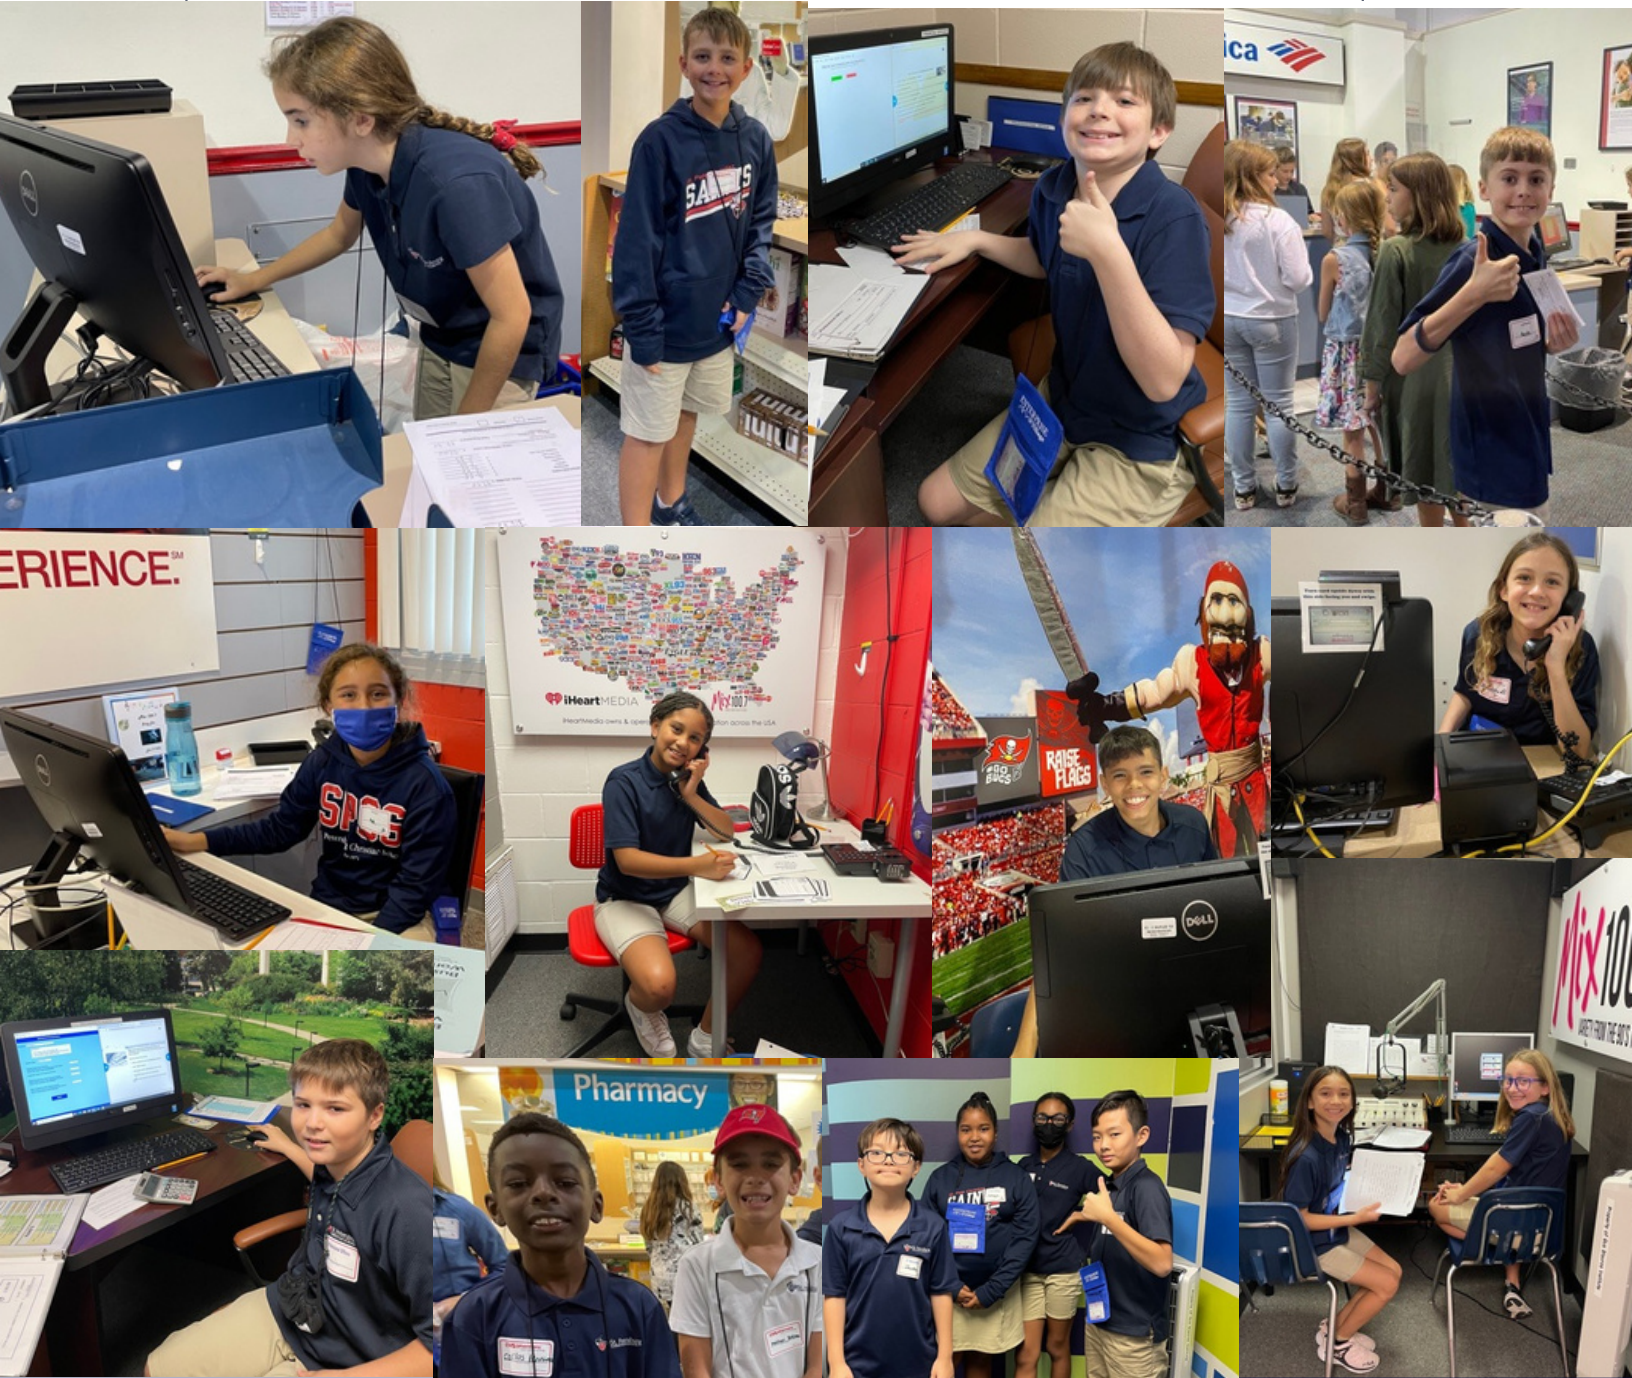

7TH GRADE SCIENCE

Seventh graders built a robotic hand complete with straws for bones and twine demonstrating how muscles work. Lab groups designed their hands and then worked together to attach 'the bones' to their hands and have independent movement for the fingers. This was a great activity to see how God created our musculoskeletal systems!

5TH GRADE VISITS ENTERPRISE VILLAGE

Fifth graders spent the 1st Quarter studying economics and learning about writing checks, using a debit card, keeping a checkbook register, applying for a job, and working in a group. On Thursday they spent a "business day" at Enterprise Village. They worked in one of the 20+ businesses, took 3 breaks, received paychecks, and had the opportunity to be consumers by making purchases in one of the business-sponsored stores. Without a doubt, this is one of the student's favorite field trips.
