HEAR FROM THE HEADMASTER

SPCS Families,

I was happy to see so many parents join us for our Parent Nights this week. I know that the teachers were eager to meet you and share their plans for a successful school year. We appreciate your trust and partnership and look forward to great things!

Our fall sports teams are off to great starts and I encourage you to check the schedules and come cheer them on. Our home volleyball games are in our gym and home soccer games are at the soccer field across the street at Suncoast.

"Actually, godliness is a great source of profit when it is combined with being happy with what you already have." 1 Timothy 6:6

Enjoy your weekend!

In Him,
Bobby Hunter

MISS DORSETT'S CLASS IS LEARNING SO MUCH

Miss Dorsett's Kindergarten class learned so much this week! They focused on the letter "I", started reading in groups, and are quickly learning how fun it is to add! They are really hard workers!

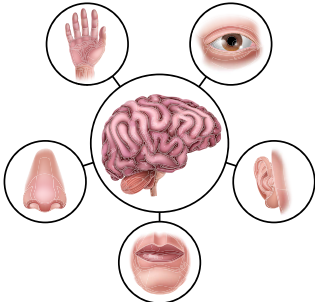

ELEMENTARY MUSIC ROCKS

This week in music class, Kindergarteners learned how to keep steady beats with rhythm sticks and 1st graders grouped beats into measures with their strong and weak beat balls. The 3rd-grade students enjoyed their first recorder lesson. There are definitely some future musicians at SPCS!

3RD GRADE SCIENCE FUN

This week, third grade students learned about their 5 senses using hands-on activities. They had a fun taste test exploring all the different types of tastes – sour, sweet, bitter, and salty. They also guessed the scent of smelly stickers, listened and guessed about sounds in nature, and wrapped up the unit by partnering up and using adjectives to describe textures in their “touch bags”.

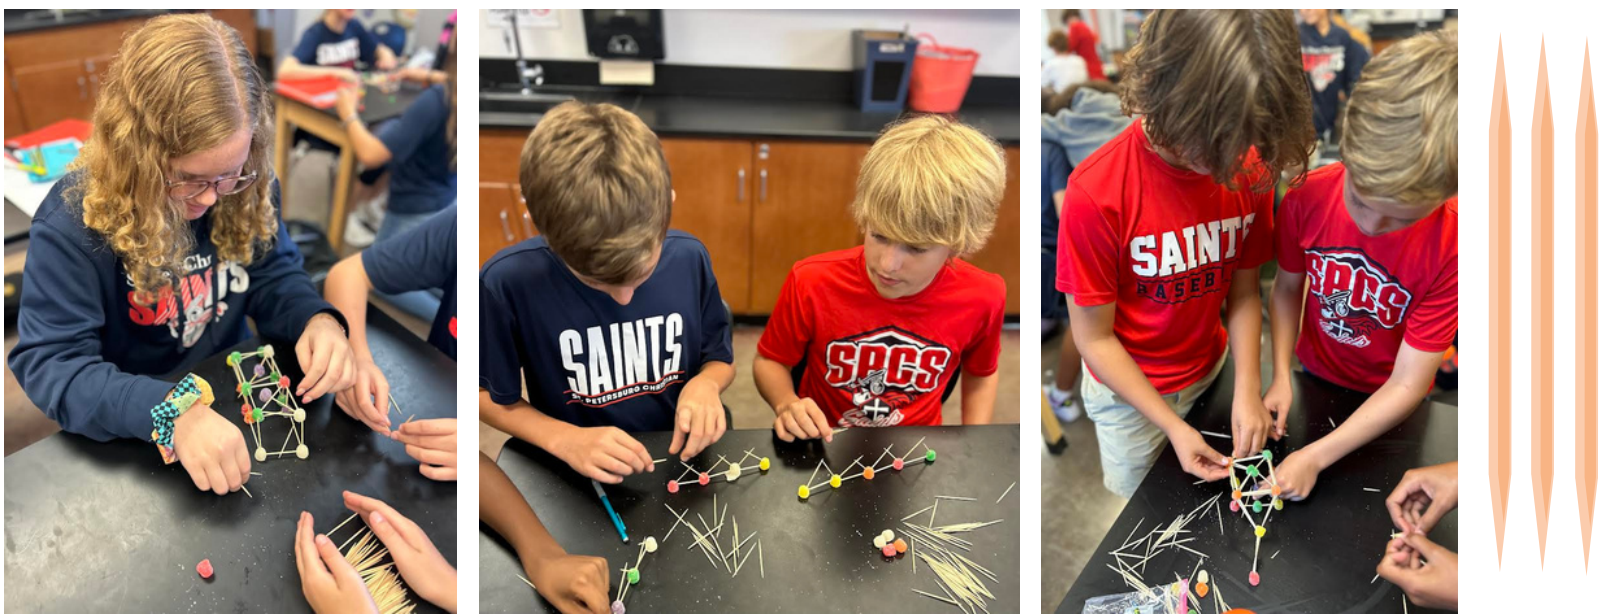

6TH GRADE SCIENCE

Our sixth graders made hoop gliders to demonstrate how to construct and redesign a flight device. Students were able to decide how to best structure their glider and test to see what worked best. Then, students flew their creations with their peers to see which designs had the most successful flights.

7TH GRADE SCIENCE

Our 7th graders stretched their creative skills to design a toothpick bridge with teammates. They worked to have a sturdy structure that could be weight-bearing and maintain its design without collapsing.

CALENDARS**

7TH GRADE COMPUTER

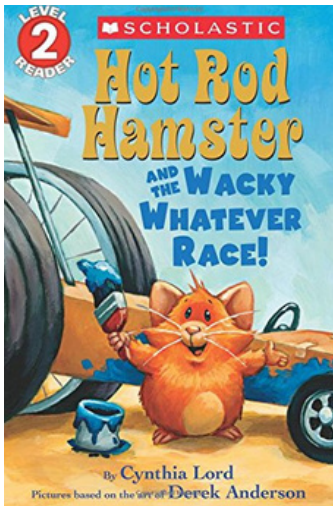

Over the next few weeks, 7th Grade students will work on designing practical items to 3D print on the school's 3D printers. Their designs are off to a great start

HARRY THE HOT ROD HAS ARRIVED

Students were excited to meet Harry the hot rod hamster in Library this week! He lived up to his name zooming around to meet everyone.

Welcome to SPCS Harry!

2ND GRADE READING FRI"YAY"

Mrs. Koon's class loves lollipop reading Fri"yay"! Asweet treat for a week of good work!
