

THE SPOTLIGHT

OFFICIAL NEWSLETTER OF ST. PETERSBURG CHRISTIAN SCHOOL

3/13/2026

HEAR FROM THE HEADMASTER

SPCS Family,

Spring Break is here, and I pray that each and every SPCS family takes the opportunity to make happy memories and spend time together.

We have officially ended the 3rd quarter of school, and once we return, the remainder of the school year will fly by with events and activities to keep us busy!

"Be glad in the LORD, and rejoice, O righteous, and shout for joy, all you upright in heart!" Psalms 32:11

Enjoy your week!

In Him,
Bobby Hunter

 **Grades 6-8** 
SKY ZONE[®]

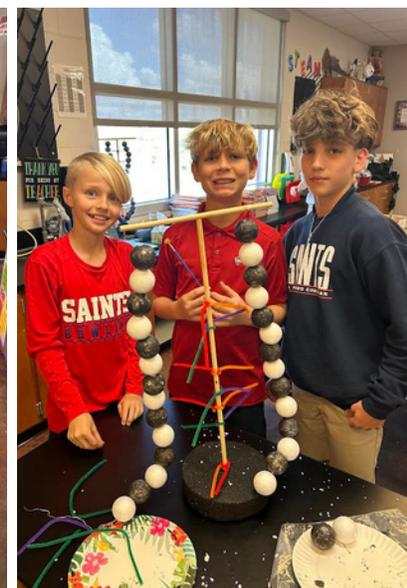

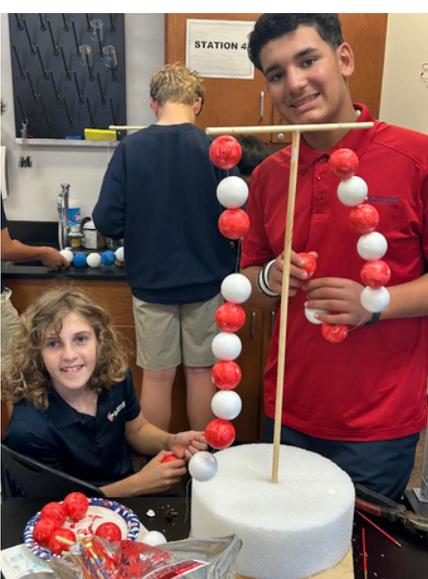

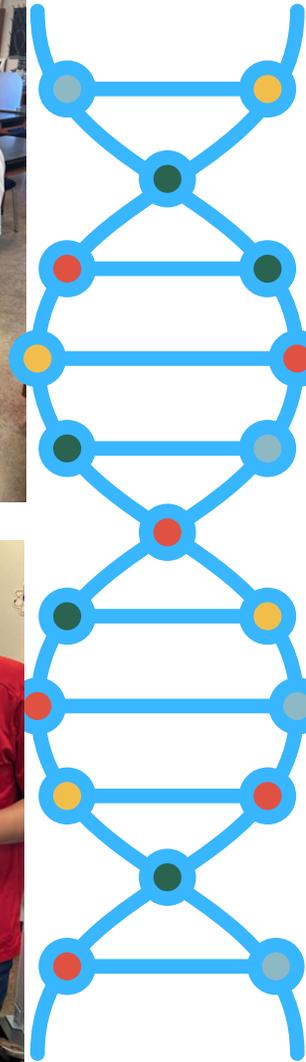

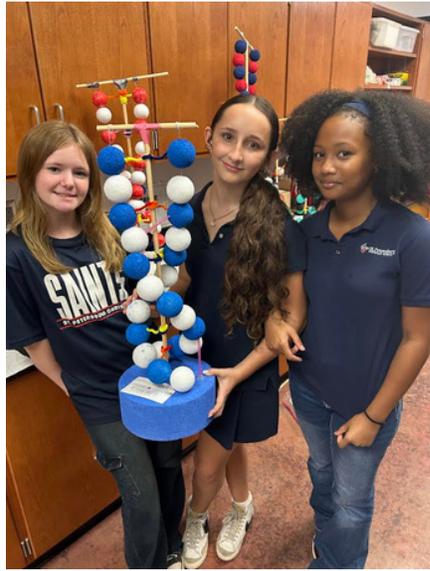

6TH GRADE ROPES COURSE FIELD TRIP

Always a highlight of their middle school experience, 6th grade students enjoyed their overnight trip to Parrish. They participated in activities to foster teamwork, collaboration, leadership, problem-solving, conflict resolution, and much more! Experienced guides with Common Ground Adventures facilitated the students through activities in both low ropes and high ropes elements.

7TH GRADE SCIENCE

Our Middle School students are finishing their studies on cells and genetics. The seventh graders are building 3D DNA molecule models. Students worked to create a DNA strand showing the double helix shape and their bonds. Each team shared their unique and creative projects.

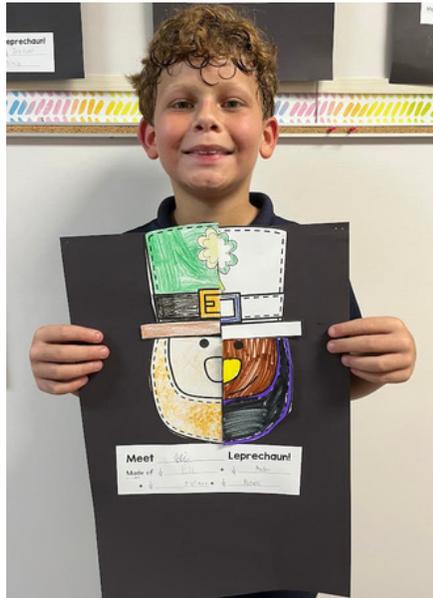

2ND GRADE FUN

Second-grade students celebrated St. Patrick's Day early! They dressed in green and enjoyed a pizza lunch with their teachers!

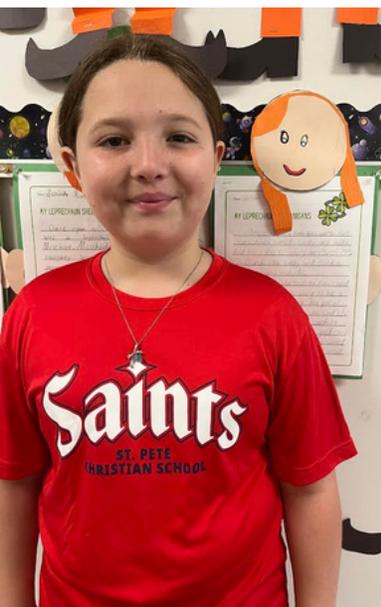

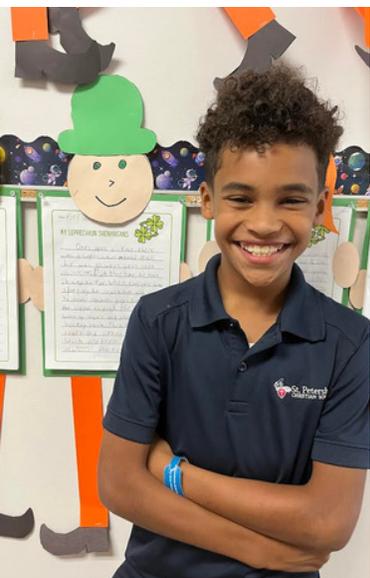

3RD GRADE MATH

Third-grade incorporated St. Patrick's Day into their math lesson by designing a leprechaun made up of 4 quarters - each quarter from a different classmate.

4TH GRADE LEPRECHAUN WRITING

Students wrote about the mischief they would get in if they were a leprechaun and created a matching character!

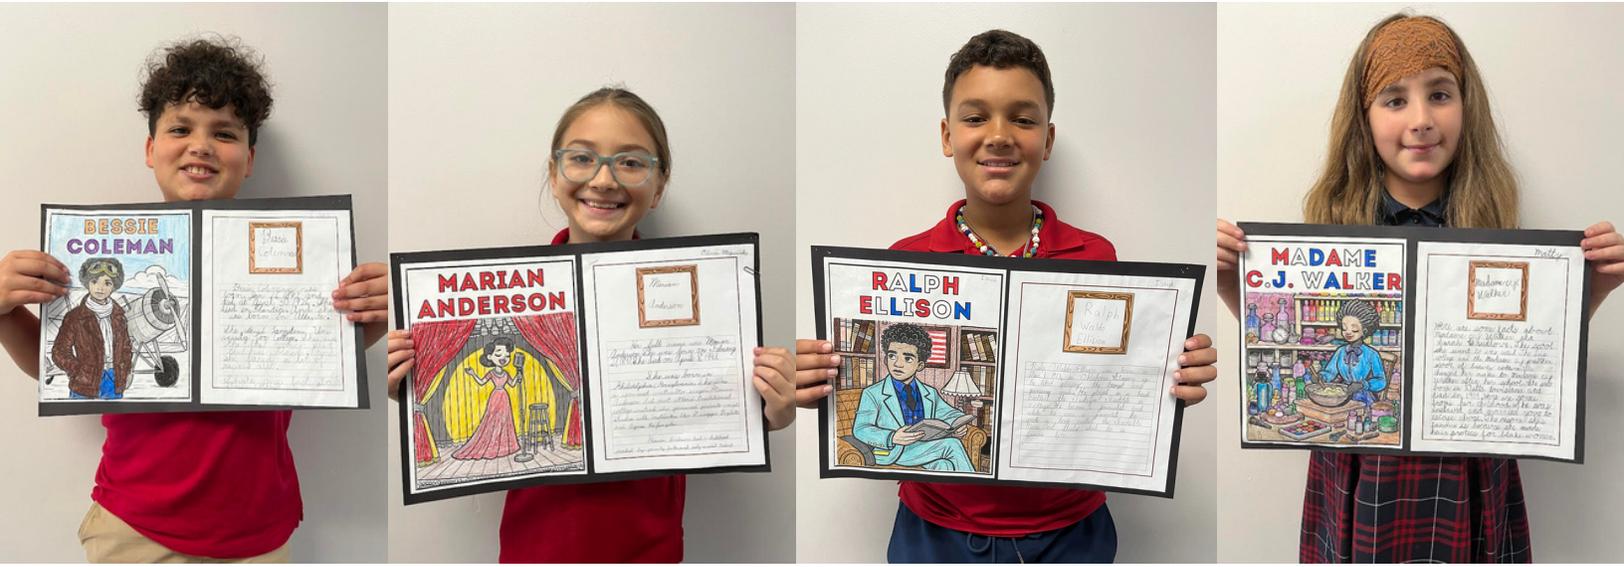

KINDERGARTEN WELCOMES SPECIAL GUESTS

Mrs. Luker brought her 4th graders down to Miss Dorsett's class to share their poetry creations! They did a great job writing limericks, bio, color, alliteration, and acrostic poems!

4TH GRADE HISTORY

Students researched a person from history and why they are famous. They created artwork and used their best cursive handwriting to showcase their work!

MAKERSPACE MAGIC

Look what our 5th grade Makerspace students accomplished this quarter! Through teamwork, creativity, and a lot of finger weaving, they set out to see just how long they could make their woven strands...and the final total was an amazing 534 feet!

MATHLETICS CLUB

This week, the second grade mathletics club had a fun Kahoot! competition!

5TH GRADE PI DAY

Pi Day is an annual celebration of the mathematical constant π . Pi Day is observed on March 14 since 3, 1, and 4 are the first three significant figures of π . Fifth Grade made the most of the upcoming celebration with a corresponding math lesson and sweet treat!

8TH GRADE SCIENCE

The 8th graders are using their chemistry skills and knowledge to understand types of chemical reactions and how different substances create a variety of unique reactions. Students identified the different products created and how the chemical change that occurs is more than just a state of matter shifting.

SPRING SPORTS UPDATE

Lady Saints played Canterbury this week in Softball. They had their eye on the ball at the plate with a collective 15 hits! 17-3 Victory! Let's Go Saints!
