HEAR FROM THE HEADMASTER

SPCS Families,

Our final weeks together will include the Spring Concert, Varsity Sports Banquet, and many end of the year field trips and celebrations! With everything going on, I encourage our students to finish strong, do their best, and make memories!

This week, our 7th Grade students enjoyed 3 days at Nature's Academy, 8th Grade students traveled to Washington DC, and 3rd Graders visited Kennedy Space Center. The knowledge gained and memories made on these trips will last a lifetime!

Next week, our baseball and flag football teams will wrap up their seasons. Please check the school website home page for the dates, times, and locations of these games and come cheer on our SAINTS!

"God, who started this work in you, will keep at it and bring it to a flourishing finish." Philippians 1:6

In Him,
Bobby Hunter

UPCOMING EVENTS

Early Dismissal

5/03/24

Grades K-1 11:00

Grades 2-4 11:15

Grades 5-8 11:30

Varsity Sports Banquet

5/03/24

Elementary Spring Program

5/07/24

MATH OLYMPIANS ADVANCE TO NATIONALS

Our math olympians excelled at the district level. Seven of them placed in the top 15 students, at their grade level, of all schools competing in the ACSI Eastern Division (from Maine to Florida). What an accomplishment! The students will compete in the national competition on Friday, April 3rd.

3rd Grade

- Blake C.
- Sophia D.
- Barrett W.

4th Grade

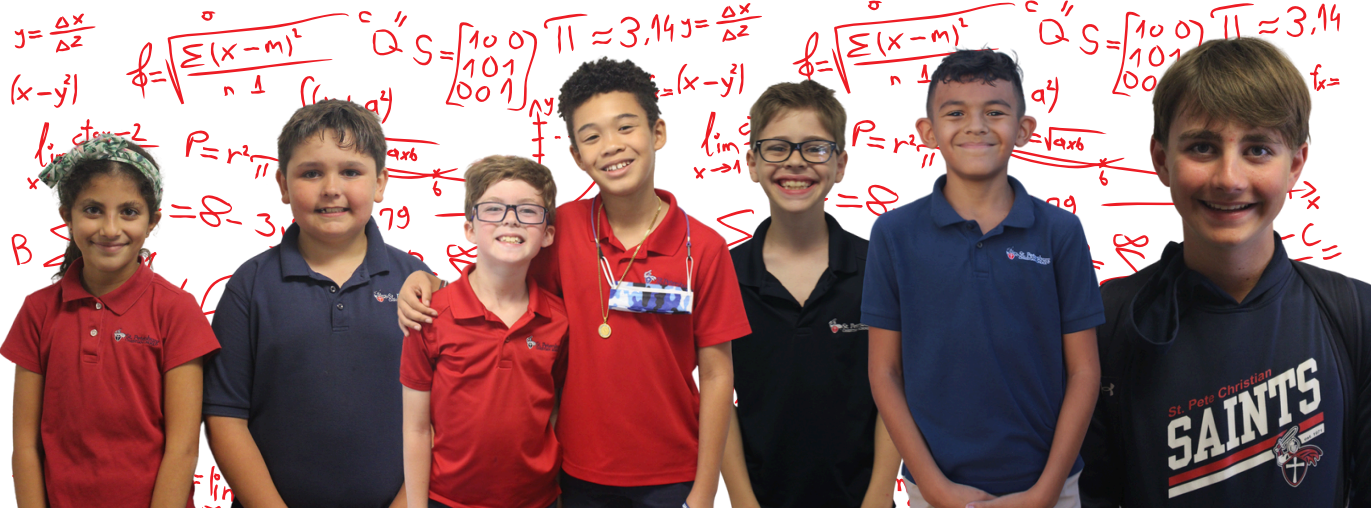

- Elijah B.
- Steele P.

5th Grade

- Mateo V.

7th Grade

- Caleb R.

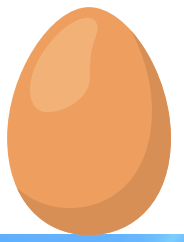

2ND GRADE GOES TO CRACKER COUNTRY

Second graders went back in time on their field trip to Cracker Country. They held class in a one-room school house, churned and ate butter, tried their hand at farm and household chores, explored community buildings, and learned the skills of Florida's pioneers. They had a great time!

6TH GRADE SCIENCE

Our 6th graders showed off their engineering skills with the Egg Drop Challenge. Teams planned together to create sturdy containers that met a set of criteria and constraints. Each device had to carry an uncooked egg to safety on the ground without breaking on impact. They discovered that using their science skills can be fun!

8TH GRADE SCIENCE

The 8th graders continue to explore chemical reactions and how those reactions create new substances. Lab groups worked together to create thermal reactions, states of matter changes, and more.

2ND GRADE READERS

Silas A. and Zayden N. have each read 100+ books! Their reward was to visit a Kindergarten classroom!

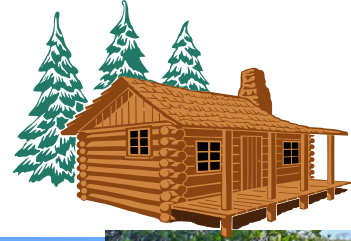

8TH GRADE VISITS WASHINGTON DC

Their trip to Washington DC was all that they hoped for! Students toured the city, explored monuments, visited museums, and made memories with their friends!

7TH GRADE NATURE'S ACADEMY

Our 7th graders enjoyed their Nature's Academy field trip. Students participated in outdoor activities and team building and also had the opportunity to apply what they learned in the classroom this year. It was a great experience!

SPCS BONDS DON'T BREAK

These alumni are graduating from Northeast High this year! They got together to take this picture for old time sake and we love it!

Congratulations

Brooke, Lexi, Sonya, Devin, Kristen, Somar, Jude, and Aiden

happy graduation

3RD GRADE KENNEDY PREPARATIONS

In anticipation of their trip to Kennedy Space Center, 3rd graders simulated what it is like to sleep in space. They also made soda rockets and foam shuttles!

"Remember, you're the one that can fill the world with sunshine."

- Snow White
