HEAR FROM THE HEADMASTER

SPCS Family,

Thank you for your generous support of the NJHS Kind Mouse food drive this week. Tomorrow, NJHS members will bring the donations there and serve as volunteers, assembling and sorting food. I am always proud of the example that SPCS students set in our community.

The 1st quarter of school is winding down. Please encourage your student to keep up the hard work, give their best each day, and celebrate their successes. I know that our teachers are ensuring that personal character and spiritual growth mature alongside academic achievements. We are blessed to have such a wonderful team at SPCS.

"Train up a child in the way he should go; even when he is old he will not depart from it." Proverbs 22:6

Have a great weekend!

In Him,
Bobby Hunter

October

CELEBRATION STATION FUN

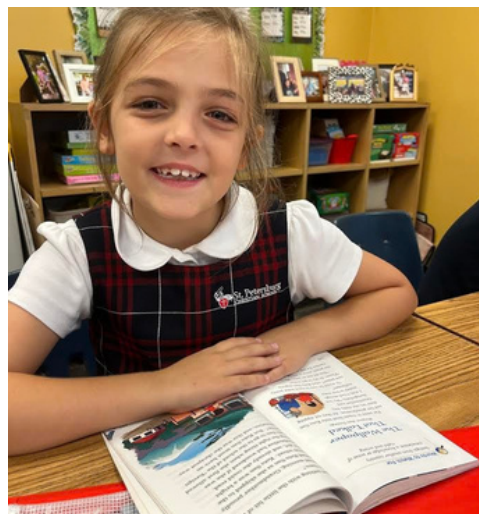

Students in grades 2-5 who completed their summer work packets enjoyed a day of fun at Celebration Station this week.

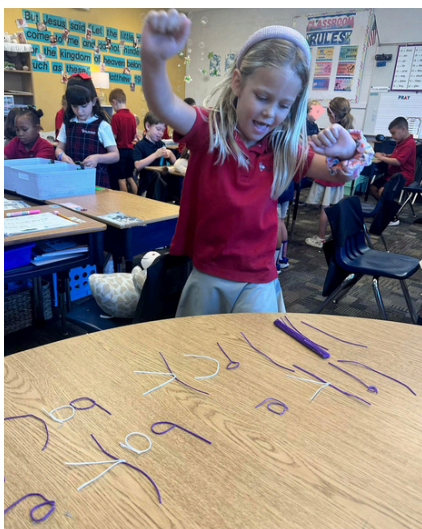

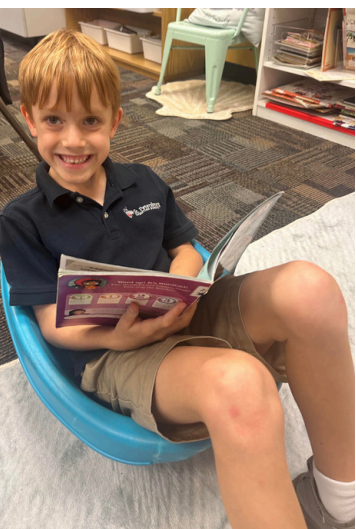

2ND GRADE READING

Mrs. Mascara's class loves reading time. While they wait for their reading group to be called, students can read independently and take AR tests.

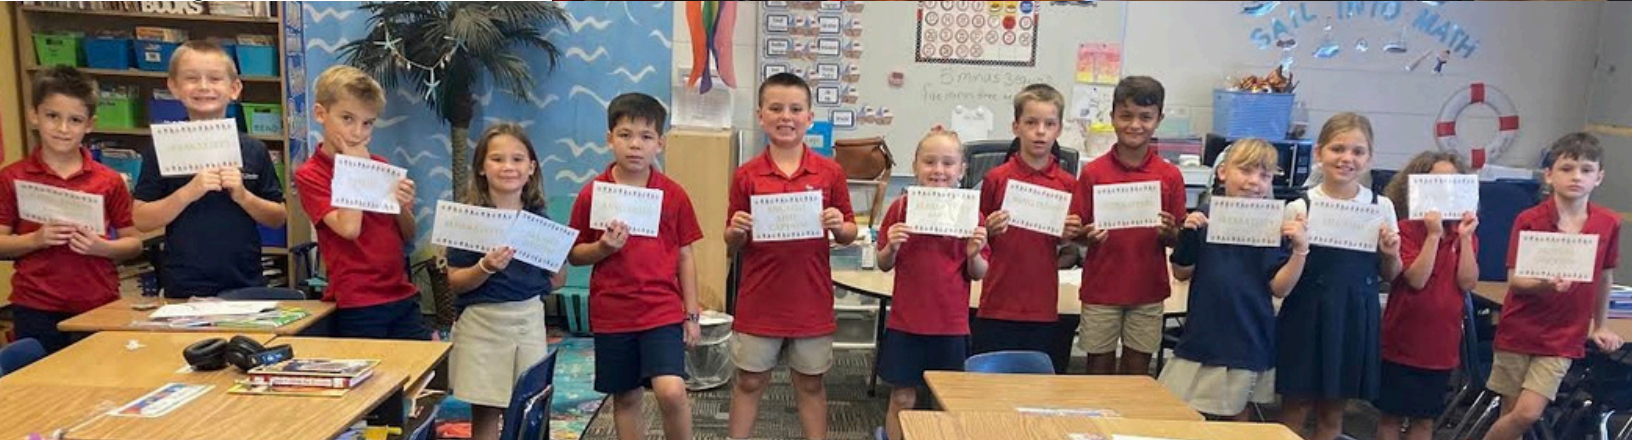

1ST GRADE LEARNING FUN

Mrs. Hendley's class stays engaged with reading, spelling, and crafts. Lots of learning and fun!

2ND GRADE SOCIAL STUDIES

Mrs. Koon's class had fun learning about the Separatists who left England for America to worship God the way they believed the Bible told them to. They read a Readers Theater, where a story or play is read aloud, and the students' voices become the characters. It was very entertaining and informative.

FRIENDSHIP FIRST

Stella's teachers shared how she took it upon herself to make these flyers for her classmates in math class. They were inspired by her initiative and heart to help others.

"In the same way, let your light shine before others, that they may see your good deeds and glorify your Father in heaven." Matthew 5:16

Kind Mouse supports food-insecure families, and donations support school-age children in need. Tomorrow, our NJHS students will deliver donations and assist with assembling and sorting of food. Thank you for your support SPCS!

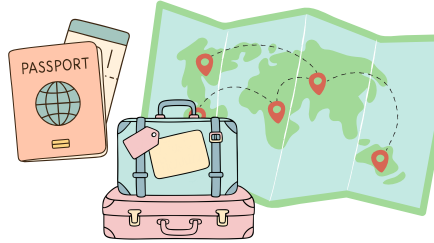

FALL FUN IN KINDERGARTEN

Miss Dorsett's class had fun creating artwork to get their classroom ready for October. Miss Daggett's class joined them on Thursday for some fun spelling, sight word, and math games!

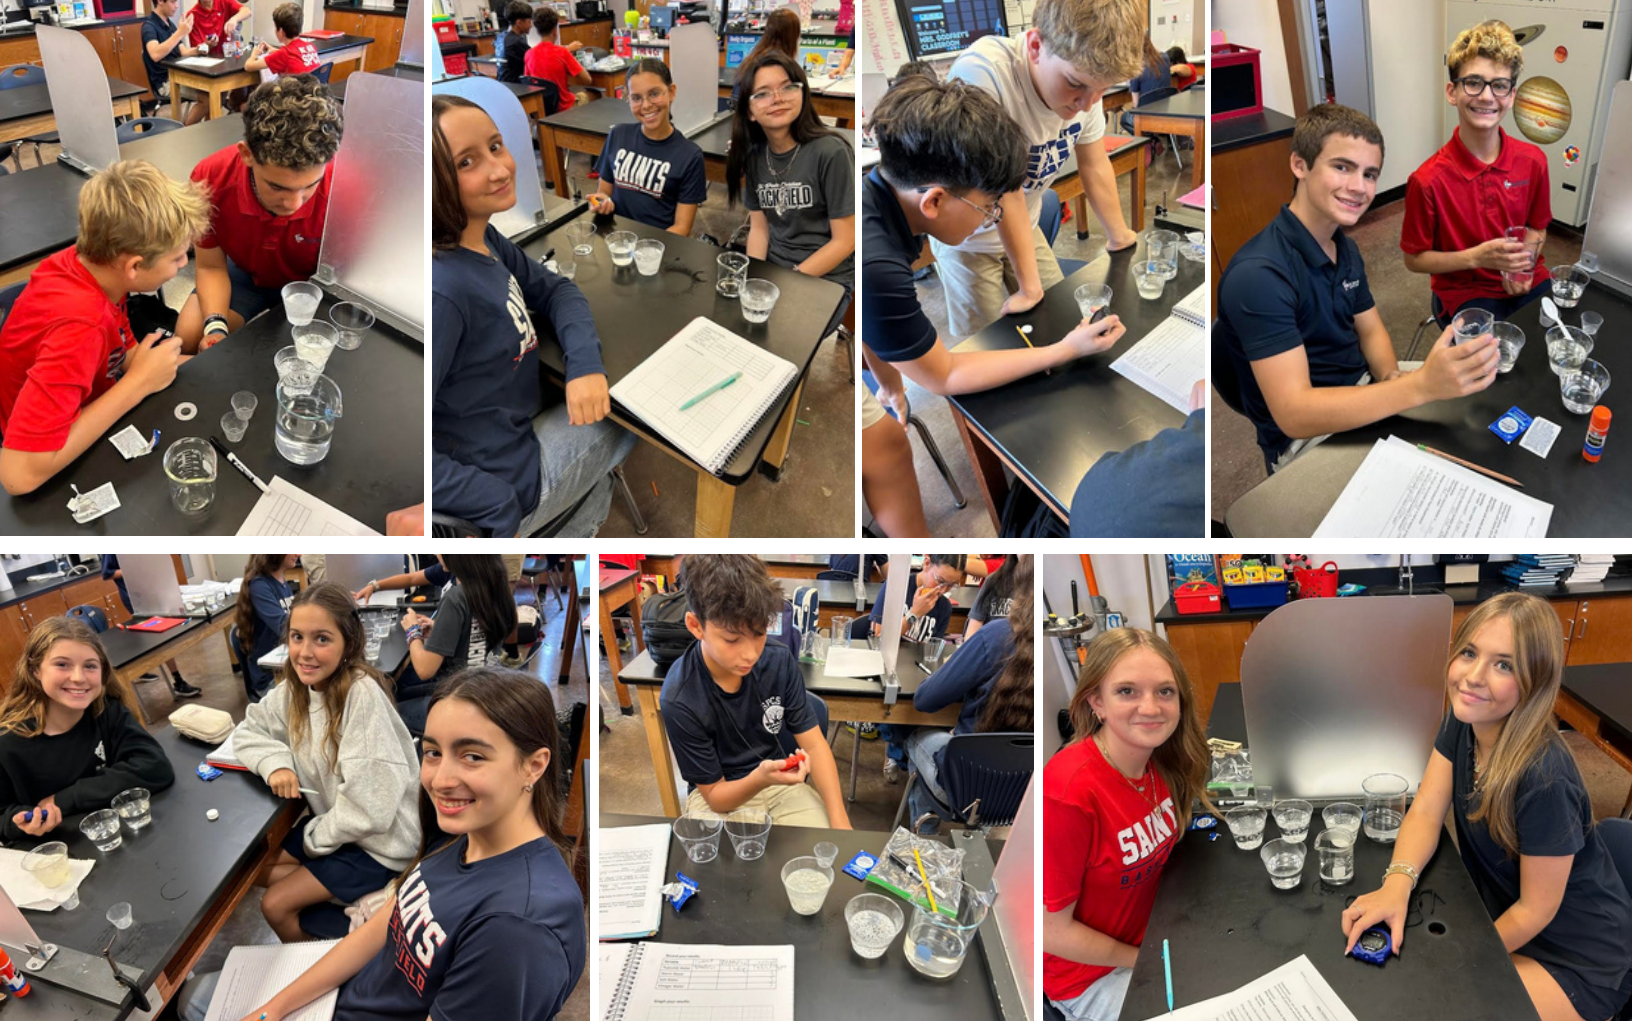

3RD GRADE TRAVEL MATES SENDOFF

Students look forward to the Travel Mate project in 3rd Grade. This week, students celebrated their mates and prepared to send them on their journeys. We look forward to hearing where they traveled!

8TH GRADE SCIENCE

As the 8th graders explore all aspects of physical science, students worked in lab groups to observe and record different chemical processes. Lab members incorporated their math skills to time reactions with different solutions and then graph their data. Students followed step-by-step instructions to be sure they produced the correct reactions listed in their lab materials.

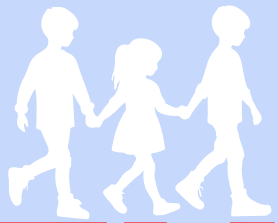

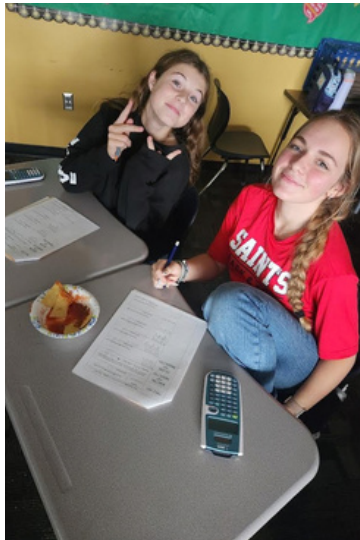

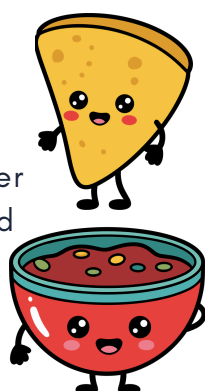

6TH GRADE SCIENCE

The 6th graders worked to 'drop the ball' during lab class and gain a better understanding about gravity as a noncontact force. Lab groups received supplies to build a container that would catch the golf ball when dropped to the ground. The goal was to create a container that captured and held the ball to demonstrate understanding of how certain forces worked.

MIDDLE SCHOOL MATH

Yesterday, our Algebra 1 students learned about the type of inequality equation that is separated by the word OR and goes apart from each other. We talked about how you can choose chicken OR steak at a dinner party. Today, they learned about inequalities separated by AND, and how they come together. So, we enjoyed chips AND salsa. A perfect Friday afternoon snack to close out a great week!

SPCS ATHLETE OF THE WEEK

Pierce D. - Soccer

Pierce has many saves in goal. His determination, consistency, and skill kept our team in every game.

Great job Pierce! !
