HEAR FROM THE HEADMASTER

SPCS Family,

Another week is in the books! It was great to see so many of our Elementary parents on campus this week for Parent Night. I know our teachers were excited to meet you and share their plan for making it a successful year. We value our partnership with each of you and are grateful that you made the time to join us. If you were not able to make it, you can always meet one-on-one with your student's teacher for a conference on Friday, September 18th.

As you will see in this issue, the students are settling in and getting right to work, while still having fun! Learning is happening, and I look forward to seeing all that they will accomplish this year!

"If any of you lacks wisdom, you should ask God, who gives generously to all without finding fault, and it will be given to you."
James 1:5

Enjoy your weekend!

In Him,
Bobby Hunter

have a
GREAT
WEEKEND

KINDERGARTEN FUN

Kindergarten students are working hard to learn all of their letters and the sound each one makes. Fun games and activities make it easy. In math, they are learning how to make and label a pattern. Kindergarten is so much fun!

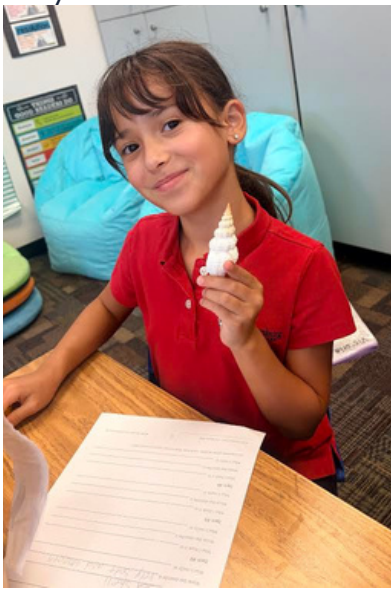

is for

3RD GRADE SCIENCE

The third grade Science lesson included using their sense of touch for touch bag experiments and using the Kahoot app to study for their test!

LIBRARY

Students visit the Library once a week. This week we caught third grade students enjoying their time choosing the perfect book, starting their book adventure, and being with friends!

6TH GRADE SCIENCE

The 6th graders engaged in a STEM challenge to build foam rocket launchers. Teams worked together to streamline their designs for the best launch distance. Each team focused on ways to make them aerodynamic while following their engineering criteria and constraints.

7TH GRADE SCIENCE

Students worked together to create parachutes that had the greatest air resistance. Each team started with a basic model and tested the flight time 10x to see if results were consistent. Then, teams began to redesign their parachutes for better performance.

MIDDLE SCHOOL CHAPEL

It was a student-led Middle School Chapel this week. We have many talented and devoted students willing to share their gifts with their peers.

MIDDLE SCHOOL CELEBRATION STATION

The middle school students who completed the summer work were treated to lunch and an afternoon at Celebration Station this week. They had a great time!
