## HEAR FROM THE HEADMASTER

SPCS Families,

This year's Spirit Week was our best yet! I was excited to see so many students and staff participating in the fun each day. The display of school spirit made me proud to be a Saint! I appreciate the dedication of our Student Government members who organized all of the fun!

This weekend we host the annual Saints Classic Basketball Tournament. Our team this year has demonstrated that they have what it takes to compete and we look forward to seeing them leave it all on the court. Stop by and cheer them on, you will not be disappointed.

"And the city streets will be filled with boys and girls playing there."

# ELEMENTARY MUSIC

In Music Class, students are studying famous music and the composers that wrote it. Second Grade learned about Mussorgsky's Pictures At An Exhibition. They listened to the music while creating their pictures! Their work will have its own exhibition in the Resource Building on the music bulletin board!

## 6TH GRADE SCIENCE

Students started off 2024 putting their STEM skills to the test. They worked to build a creative space shuttle that met criteria and constraints presented at the beginning of the project. Once teams finalized their designs, shuttles were 'launched' to see if their Lego pilots were in a safe and sturdy vehicle. Lots of creative and original projects!
