HEAR FROM THE HEADMASTER

SPCS Families,

Last weekend our boys competed in the Saints Classic basketball tournament. I am so proud of the way they never gave up and how they demonstrated excellent sportsmanship throughout the two-day event. A special thank you to our boosters and volunteers for ALL they did to make the weekend a huge success.

The month of February is filled with fun events that include the father/daughter social, field trips, athletic games, and the 8th annual Fun Run kickoff. I appreciate the hard work that so many people put into these events to make them a success.

"Therefore encourage one another and build each other up"
1 Thessalonians 5:11

Enjoy your weekend!
Bobby Hunter

6TH GRADE SCIENCE

The 6th grade started 2025 putting their STEM skills to the test. Students worked to build a creative space shuttle that met criteria and constraints presented at the beginning of the project. Once teams finalized their designs, shuttles were 'launched' to see if their Lego pilots were in a safe and sturdy vehicle.

2ND GRADE SCIENCE

Mrs. Koon's students used the scientific method to learn about gravity, which God created. They discovered that a heavier object will land at the same time as a lighter object when dropped at the same time.

5TH GRADE BIBLE FUN

Fifth-grade Bible students brought the story of David and Goliath to life using scripture to reenact the moment when David, with unwavering faith, defeated the giant Goliath with a single stone! David said to the Philistine, 'You come against me with sword and spear, but I come against you in the name of the Lord Almighty... This day the Lord will deliver you into my hands.' - 1 Samuel 17:45-46
