## HEAR FROM THE HEADMASTER

SPCS Family,

It is hard to believe that we have passed the 100<sup>th</sup> day of school, and only 4 months remain.

Last weekend, our girls took second place at the annual Lady Saints Classic basketball tournament. I am proud of the way they never gave up and how they demonstrated excellent sportsmanship throughout the two-day event. Thank you to all who came and supported them, and a special thank you to their coaches, the boosters, and all of the volunteers. Awesome job, Lady Saints!

Today and tomorrow, our boys' team will compete in the Saints Classic tournament. It is going to be cold outside, so join us in our warm gym to cheer them on!

"Every good and perfect gift is from above, coming down from the Father of the heavenly lights" James 1:17.

In Him,  
Bobby Hunter

# HAPPY 100<sup>TH</sup> DAY OF SCHOOL

Monday was the 100<sup>th</sup> day of school and teachers planned fun activities to commemorate the day. There was plenty of counting, crafts, and competitions to make it a lot of fun!

Middle school celebrated the 100th day of school by creating a pie graph to represent the colors of 100 cubes in a bag. They had to count the cubes, find the percent of each color, use the percent to determine the number of degrees each color would need in the pie graph, and then create the pie graph using a protractor.

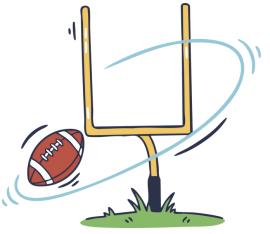

## KINDERGARTEN WINTER MATH

Miss Daggett's class counted with tallies to determine the most popular version of hot chocolate - plain, with marshmallows, or with whipped cream. Then they enjoyed their favorite!

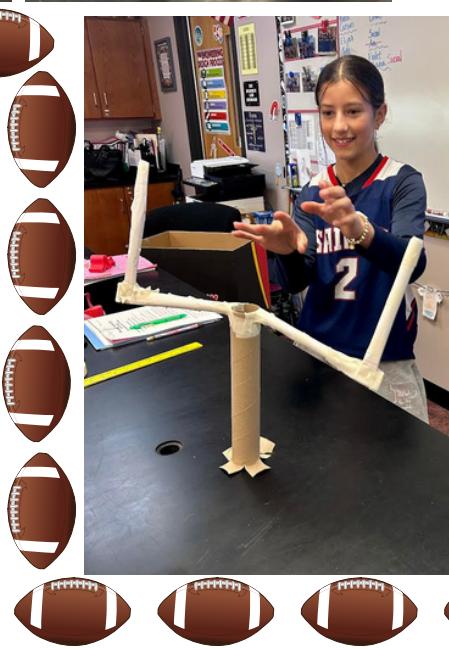

# 6TH GRADE SCIENCE

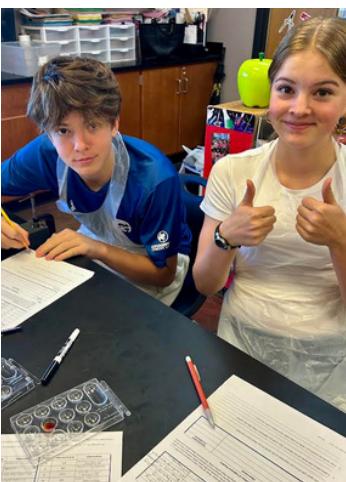

With the Super Bowl in mind, students worked with partners to construct a goal post and mini football. Students worked with a set of criteria and constraints to build a sturdy, independently standing, post so that teams could compete.

# 8TH GRADE SCIENCE

As the 8th graders explore all aspects of physical science, students worked in lab groups to make observations of powders and liquids found in our kitchen. Lab members then tested their chemical reactions with different solutions and recorded their results. Students followed step-by-step instructions to be sure they produced the correct reactions listed in their lab materials.

# 2ND GRADE FIELD TRIP

Second grade had a great time on their field trip to ZooTampa at Lowry Park. The weather was perfect for them to see all of the animals, ride the rides, and participate in planned activities, like gem mining. They even enjoyed a picnic with their families and friends.
