HEAR FROM THE HEADMASTER

SPCS Families,

With January coming to a close next week, I wanted to let you know of some upcoming events.

Next week is Spirit Week and always a fun time on campus! Please check further down in the SPOTLIGHT to see the themes for each day. Also next week, on Thursday, we are hosting an Open House for prospective families. Please tell your friends to come check out SPCS! We are so excited about all of the applications that we have already received for next year! Finally, next weekend, we host our annual Saints Classic Basketball Tournament. If you want to see our athletes in action, come catch a game. The opening game is on Friday, January 28th at 4:00 against Keswick Christian.

"The Lord has done great things for us; We are glad." Psalm 126:3

In Him, Bobby Hunter

UPCOMING EVENTS

5TH GRADE VISITS TAMPA BAY WATCH

6TH GRADE STEM SHUTTLE

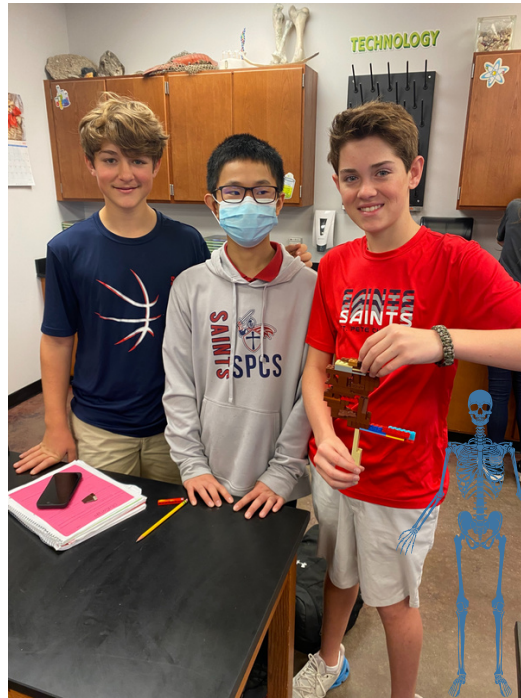

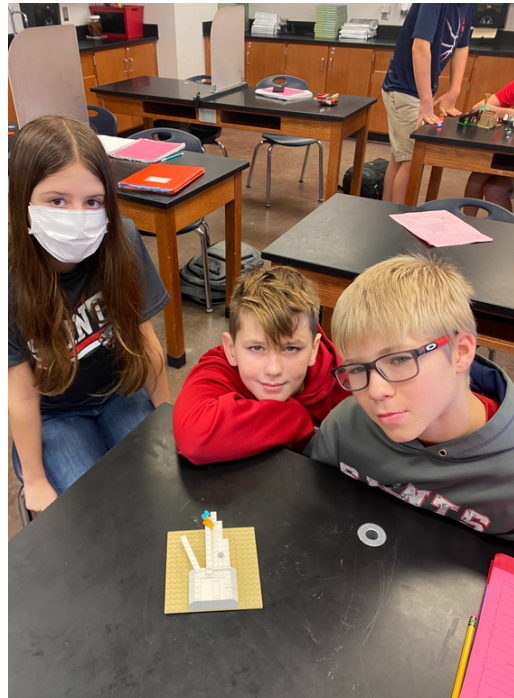

The sixth grade has been constructing a space shuttle in lab groups. During this STEM challenge, students created and then constructed a shuttle that would mirror aspects of real shuttles and needed to safely land without losing the astronauts they also constructed to fly their machine. Very creative work!

7TH GRADE BIOLOGY

Seventh Grade students are exploring human anatomy as part of their Biology studies. Lab groups used Legos to create models of hearts, kidneys, and skeletal structures to demonstrate parts of God's creation. Students explained why models were useful in classroom studies and why models assist students in the learning process.

6TH GRADE FIELD TRIP

The Bishop Museum hosted our sixth graders this past week as they continue their Astronomy unit. Students experienced the planetarium and had a birds-eye view of our solar system and the wonders of God's handiwork. After they finished with the planetarium, students participated in docent-led tours of the museum exhibits and ended their day at the manatee aquarium. It was a great day of learning!
