HEAR FROM THE HEADMASTER

SPCS Family,

It was another busy week on campus! Assemblies, field trips, class projects, and a special Tampa Bay Rays dress down day all highlight the learning and fun happening at SPCS. I am proud of every student, teacher, and staff member who is a part of it.

Tomorrow is our annual Fall Festival, and I hope to see you there. If you did not get your wristband, they will be available at the door too. Come enjoy delicious food, fun activities, and meaningful fellowship! I want to thank Sandy Hannon and her team for coordinating this special event for our SPCS family.

"The Lord will indeed give what is good, and our land will yield its harvest." Psalm 85:12

In Him,

Bobby Hunter

UPCOMING EVENTS

SPCS Fall Festival
10/24/26

Veteran's Day Chapel
11/11/26

Operation Christmas Child Kickoff
11/18/26

Thanksgiving Break
11/23-27/26

To help cover the cost of their Kennedy Space Center field trip, 3rd graders sell popcorn. After they do the hard work of prepping the bags, their friends get to enjoy it! Thanks for your support!

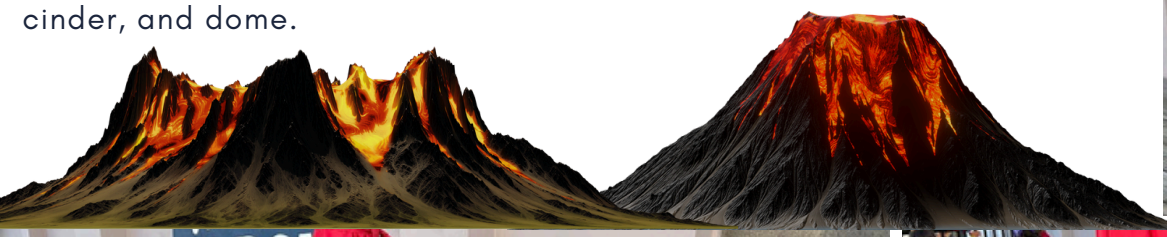

6TH GRADE SCIENCE

With the beautiful weather, students headed outside for some learning time. Students are researching about different types of volcanoes. They worked on research and definitions of the different types such as shield, cinder, and dome.

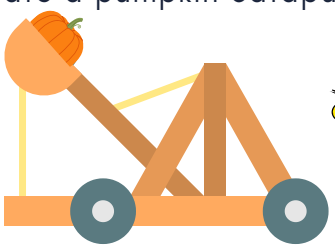

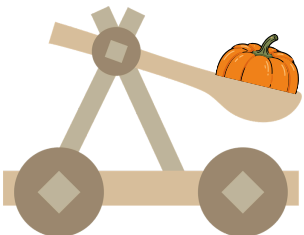

They also planned and strategized with other class members to design catapults. Teams could test their device and redesign their models for the greatest launch capacity. Students worked cooperatively to find ways they could create a pumpkin catapult with the supplies provided.

On top of that, students chose a dinosaur to research and explored its characteristics. Students then compared those traits with other dinosaurs chosen by their classmates. Students wrapped up their project by making their own unique 3D models. It was a great week!

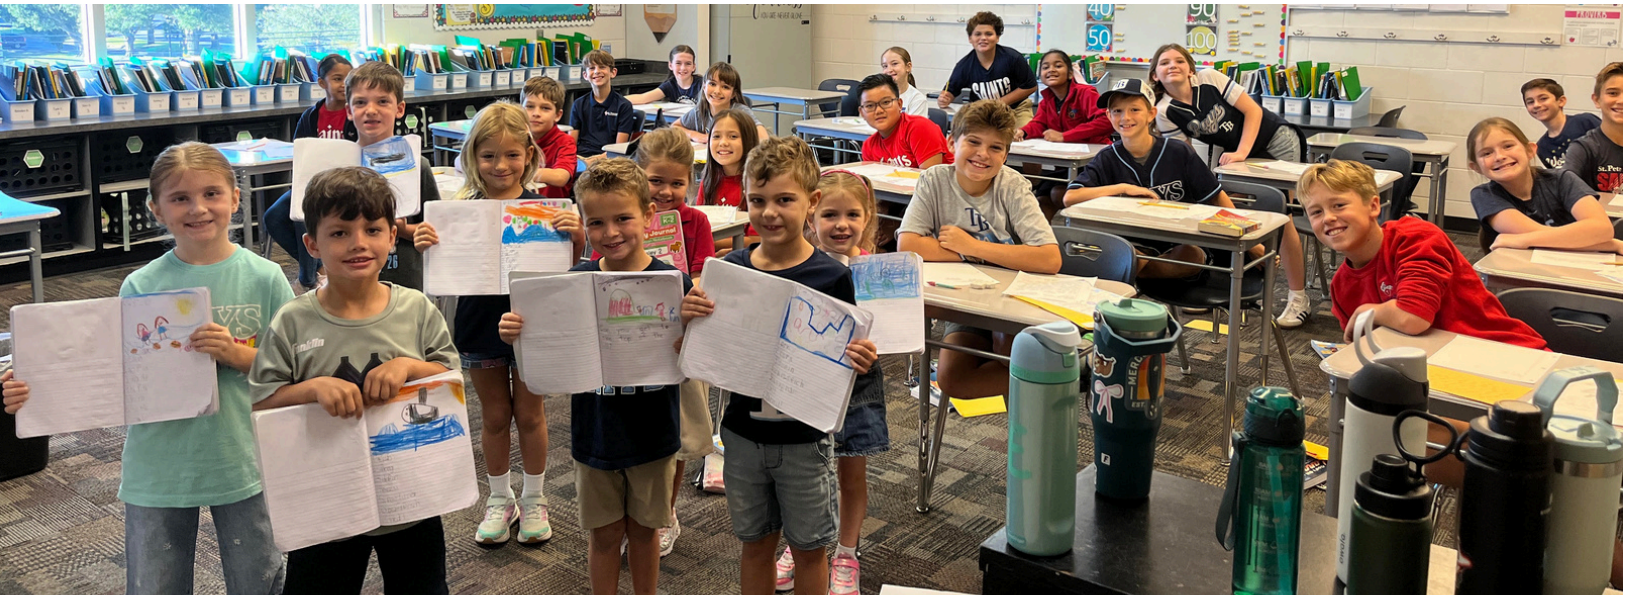

5TH GRADE VISITORS

Our fifth-grade students had the special honor of listening to some amazing kindergarten students share their journal writing! It was such a joy to see these young writers proudly showcase their work, complete with their colorful illustrations and growing writing skills. Our fifth graders enjoyed celebrating their creativity, effort, and accomplishments. What a sweet reminder that every writer starts somewhere, and it's exciting to see a love for learning and writing grow from the very beginning!

1ST GRADE FIELD TRIP

First graders had fun on their field trip to Great Explorations. They enjoyed the "Anything Can Happen" interactive program that made them the stars of a live-action game show. The program combined fast-paced learning with energetic team competition to keep them engaged. They also had time to enjoy the exhibits.

GREAT EXPLORATIONS

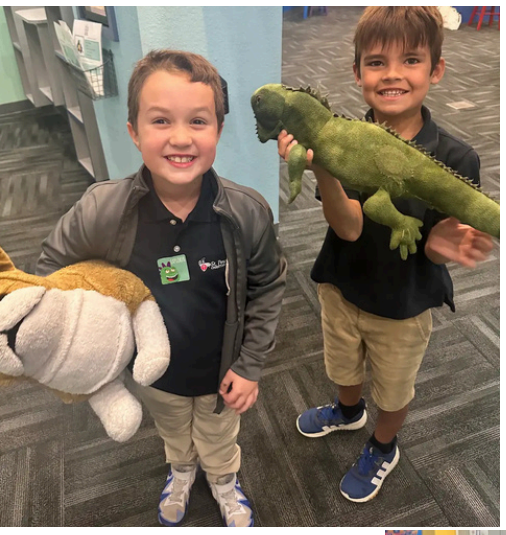

They also welcomed mystery readers and one read *Stellaluna*. Just like bats using sonar to hunt at night, students plugged their ears and used slinkies and strings to test out the wild science of echolocation!

2ND GRADE FIELD TRIP

Always a favorite, 2nd graders spent the day immersed in a rural Florida community of the past and learned how a late 19th-century rural family survived. At Cracker Country, they tried their hand at farm and household chores, explored community buildings, and learned the skills of Florida's pioneers. They also dipped a candle, made rope from an agave plant (to play tug-of-war with later), and visited the Cracker Country General Store.
