

Scoliosis Screening

Screening is a traditional part of school health services. Florida Statute 381.0056(6)(e) requires scoliosis screenings. The mandatory grade levels are listed below:

Scoliosis screening – provided to students in grade 6.

All students who do not pass their screening will be referred for further examination and corrective measures. If you are in need of a healthcare provider for your child, please ask.

If you do not want your child to participate in this screening, you must notify the Admissions Office, admissions@stpetechristian.org, in writing before the assigned screening date.
