HEAR FROM THE HEADMASTER

SPCS Family,

Please try and join us tomorrow for the Fall Family Festival between 3 and 6 pm. There will be plenty of delicious food, fun games, activities, and most importantly, a sense of community and fellowship. If you did not pre-order your wristband, you can still get one at the gate. I hope I see you there!

Again this week, there was a lot happening on campus and we are proud to share it with you in this SPOTLIGHT. Our students have many opportunities to learn and experience new things. Thank you for letting your student be a part of it!

"For where two or three gather in my name, there am I with them."
Matthew 18:20

Enjoy your weekend!

In Him,
Bobby Hunter

THANK YOU FOR YOUR SUPPORT

NJHS students volunteered at Kind Mouse this weekend, bringing with them the almost 450 pounds of food donated by SPCS families. They received a tour of the facility, sorted and dated food items, and prepared box kits for families in need. We are very proud of our scholars and thankful for our generous SPCS families!

THANK YOU

Your donations from Tuesday's Jeans Day benefit the Hope Health and Sunshine Foundation, a Pinellas County-based organization dedicated to supporting individuals affected by cancer.

JEANS DAY

LIBRARY RAFFLE WINNERS

It's always an exciting day in the library when a Diary of a Wimpy Kid book hits the shelves — and this year's new release was no exception! Thank you to everyone who entered and shared in the excitement! Keep reading and stay tuned for more fun book raffles and surprises in the library! Congratulations to our lucky raffle winners!

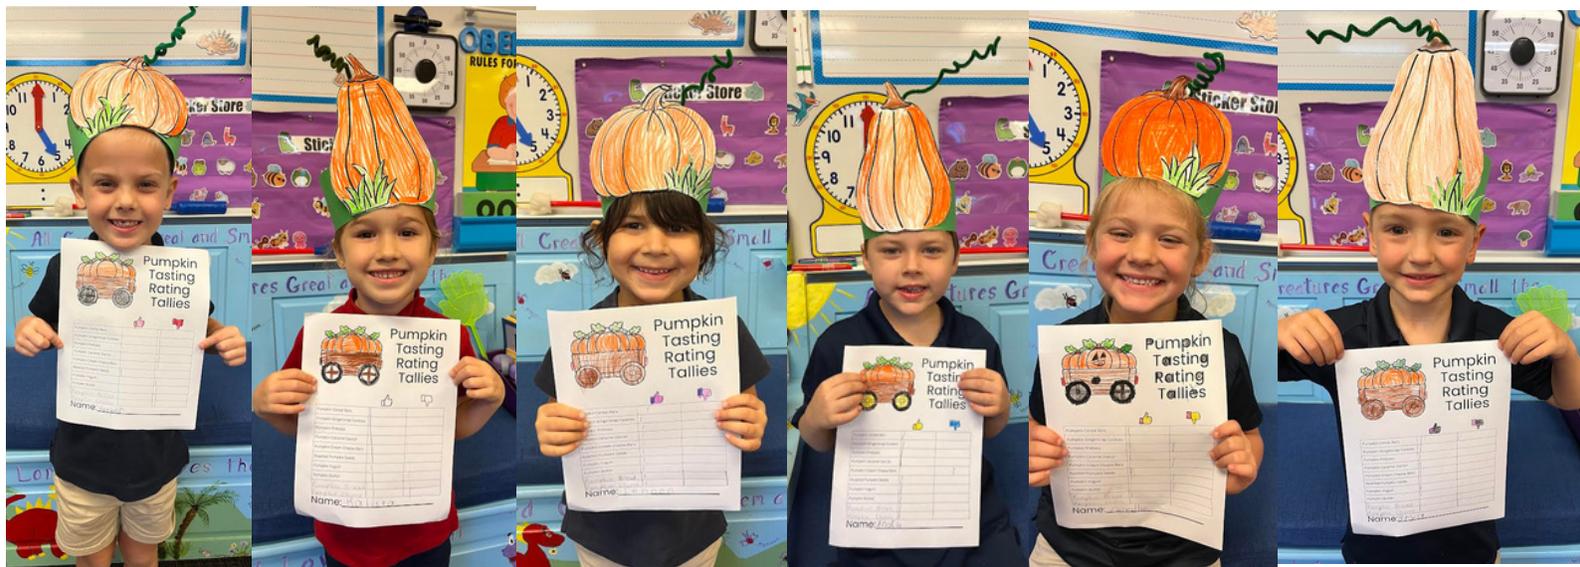

First students to check out library copies
Riley D.
Parks M.

Winner of a brand-new personal copy
Caleb H.

KINDERGARTEN PUMPKIN TASTING

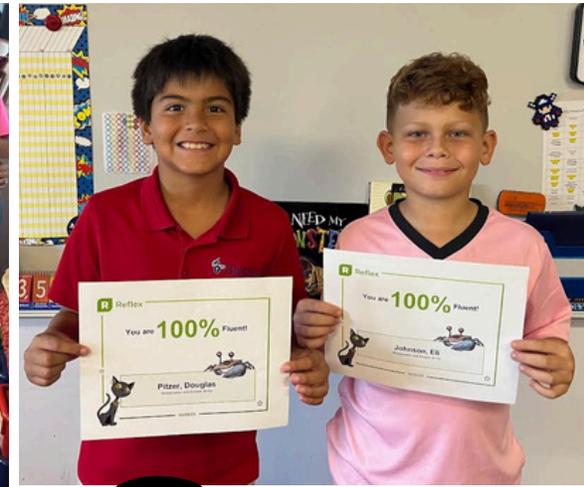

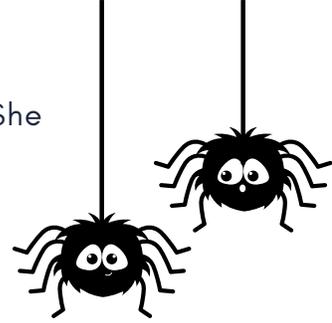

Miss Dorsett's class created tally charts to track their ratings of pumpkin-flavored foods. It was a "sweet" lesson!

3RD GRADE NEWS

Mrs. Duncan's class welcomed their first Mystery Reader of the year, Maya's mom! She read a book about spiders and even brought little lollipop spiders for the month of October.

Eli J. and Douglas P. were recognized as the first two third graders to be "Reflex Masters" and 100% fluent on their 0-12 multiplication and division facts.

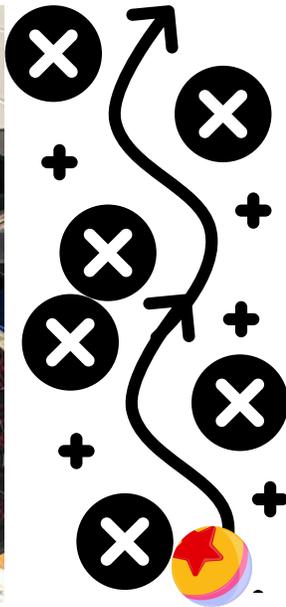

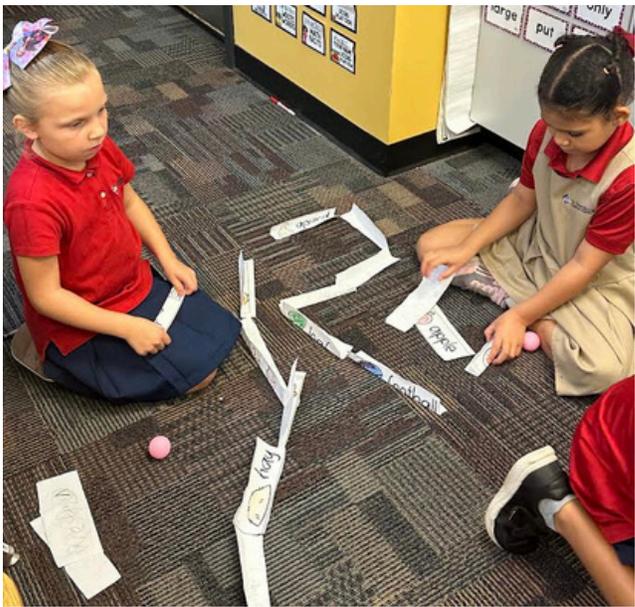

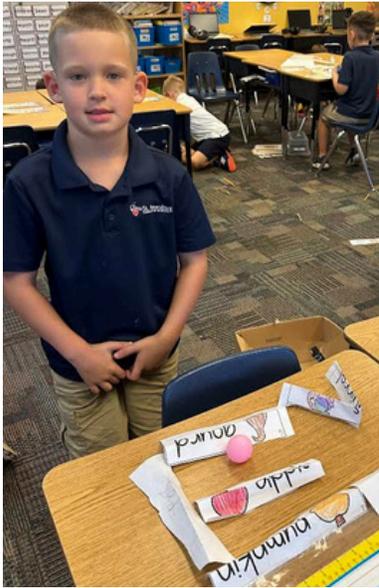

The sunny day brought Mrs. Hudzina's class outdoors to The SPOT for a Language Arts lesson!

1ST GRADE NEWS

In Science, Mrs. Hendley's class completed their lesson on how force moves things. They used their breath to move a ball through a course they designed. Paper airplanes put the lesson in motion. They also went outside for a word scavenger hunt to enhance their reading and writing skills.

7TH GRADE SCIENCE

Our 7th graders participated in a hands-on dissection learning about the sea star, more commonly known as starfish, and their anatomy. As our students progress in their biology studies, they work with partners to view how each animal group has similarities and differences to others we've studied. They continue their work on invertebrates as we explore more complex organisms in this kingdom and phylum with their unique body systems. These labs allow our scholars to discover the complexity of God's creatures.

6TH GRADE SCIENCE

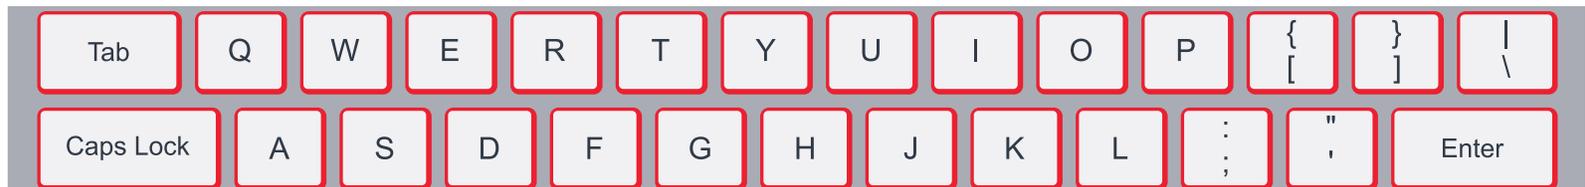

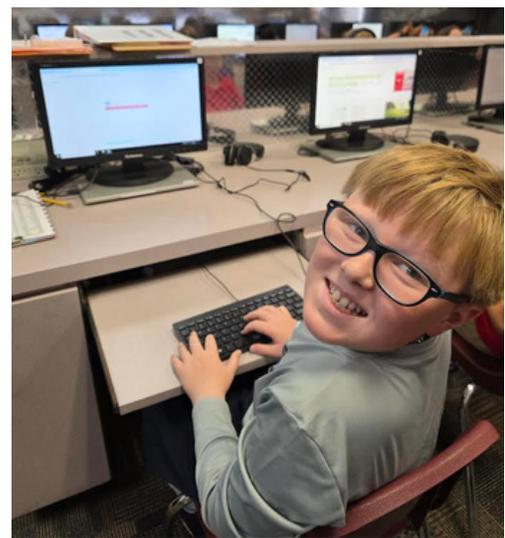

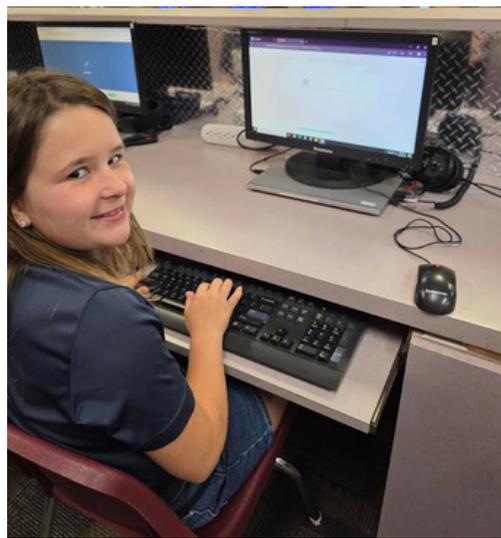

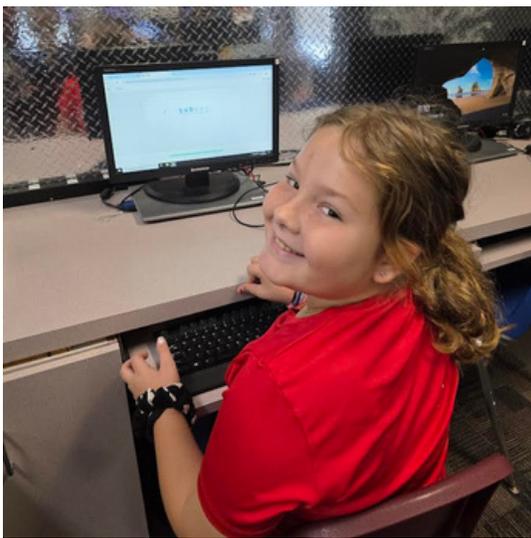

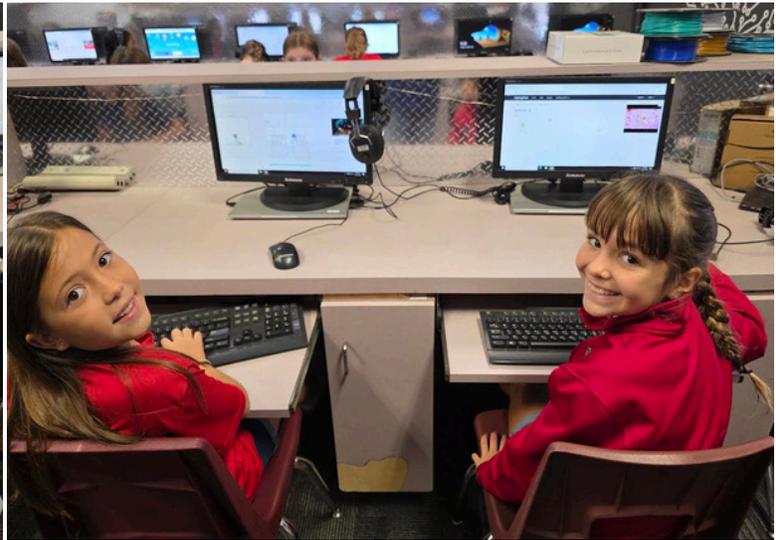

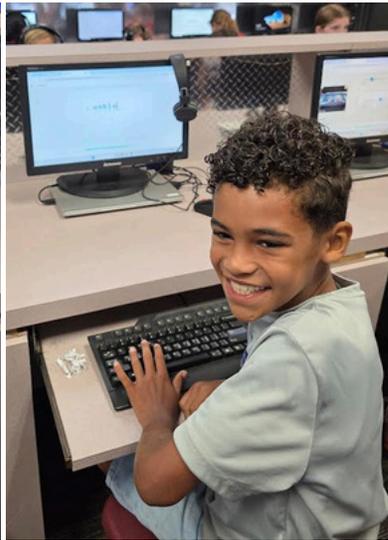

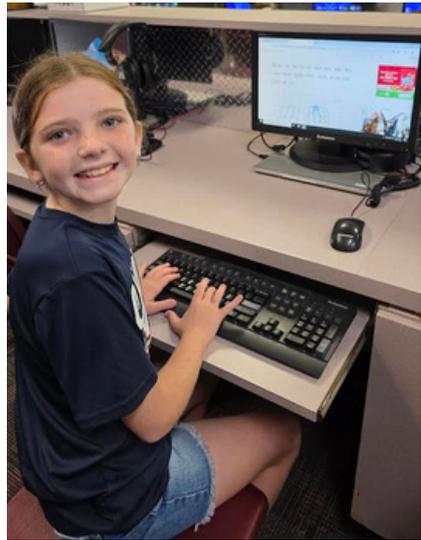

It was dinosaur week in 6th grade! Students selected a dinosaur to research and explored characteristics of their subject. Students then compared those traits with other dinosaurs chosen by their classmates. Students wrapped up their project by making their own unique 3D models.

COMPUTER CLASS

Fourth graders were introduced to a program called TypingClub to practice their spelling words and start learning how to type.
